

# Dignity

Marta Sánchez

Hear the rain coming down  
See her standing there alone  
When there's no way out  
Where is she supposed to go  
Does anybody know

She's running in the dark  
Trying to save her wounded heart  
She lost her dignity  
It cost her everything

Someday she's gonna see  
She needs her dignity.  
It's time, now's the time  
She must learn to fly  
Watch her touch her dreams  
Riding on the wind so free  
No lover does she need  
She's strong enough to know  
She don't need you anymore

(repeat chorus)

Day by day  
Leaving a world of pain  
A time to shine again  
Stronger in every way

Don't say it's forever  
Tell her you'll be tender  
Remind her, love is believing  
Love will always find a way

(repeat chorus)

Day by day  
Leaving a world of pain  
A time to shine again  
Stronger in every way

(repeat chorus)
