

# Falling Down

Marta Sánchez

Going down going down  
In a river like you  
Going down going down

Going down going down  
In a river like you  
Going down going down

But i know it from the motions that I would fall for you  
I remember when the sky was so dark  
So dark for you

I knew it  
I knew it  
I knew it

Falling down falling down  
In a big heart like you  
Falling down falling down

Round and round round and round  
In a whirlwind like you  
Round and round round and round

But i knew it from the start that I would fall for you  
I remember when the time were so dark  
So dark for you

I knew it  
I knew it  
I knew it

But i knew it from the motions that I would fall for you  
I remember when de sky was so dark for you

I knew it  
I knew it  
I knew it

For life I will fight  
For love  
I'm swimming in a river  
Like you I'm swimming  
In a river like you  
In a river like you
