

Just Forget About It

Marta Sánchez

Just forget about it
Just forget about it
Trust yourself, don't doubt it
Just forget about it
Just forget about it
I know all about it
Trust yourself, don't doubt it
Just forget about it

Enjoy the stars tonight
Hold every moment tight
Live all the seasons of your life
Cause youth can pass you by
So fast you wonder why
Each day is precious
So don't give 'em all away
Just forget about it ...

If troubles come your way
Just shake 'em off and say, ooh
There's more important things to do
Be free at heart think straight
Jump in, don't hesitate
Or all your dreams can slip on through
Just forget about it ...

So one day long from now
Well' laugh and still somehow
Well' see the beauty that life shares
It's just the final rhyme
It's just a piece of time
And may be there's
A little fruit left on the vine

Just forget about it
Just forget about it
Just go ahead and shout it, baby
Just forget about it
Trust yourself, don't doubt it
I know all about it
Just have to go without it
Just forget about it
Just forget about it
Trust yourself, don't doubt it
So go ahead and shout it
Just you don't ever doubt it
