

# Lover In A Million

Marta Sánchez

Long before  
You came to my door  
My summer days all felt like winter  
And in my soul  
Dreams just left me cold  
The winds of love had turned so bitter  
If I had only known  
Those nights I spent alone  
Would somehow go from bad to good  
Don't say a word  
My heart's already heard  
You are my lover in a million  
Don't your eyes see  
You're everything to me  
There is no other in a million  
When you're here  
Holding me so near  
Those troubled times seem very distant  
And when we touch  
Feel a tender rush  
That's going through me every instant  
If you could read my mind  
Then you would see the signs  
That I've got all I came to find  
(repeat chorus)  
If i had ever known  
How much I'd love you so  
I would have met you long ago  
(repeat chorus)
