

So Close To You

Marta Sánchez

You're not the man I thought i'd find
To fill in my empty dreams.
Sometimes we don't see eye to eye,
We say things that we don't mean.
I just can't visualize life without you now
After all is said and done.
Cause i can't help the way i feel,
I always get the sweetest thrill
So close to you.
You light me up so easily
Nowhere else I'd rather be
So close to you.
You're what I need,
You make me feel so good.
Sometimes you say that you're alone,
You're losing my love somehow.
Now don't you even think of that, no
Cause I'll never let you down.
There's no question in my mind of
What lies ahead
You and I, eternally.
(repeat chorus)
Only wanna be getting close to you,
Never wanna find that i'm losing you.
I just can't visualize life without you now
After all is said and done.
