

# That's Alright With Me

Marta Sánchez

You're the spell i'm under  
You make me wonder  
What would your love be like  
If you get much closer  
I'll lose my composure  
You could keep me up all night

I wanna be the one  
I wanna turn you on  
I'll keep you satisfied  
Cause you can do no wrong  
Together we belong  
Forever you and I

It's so easy  
Make believing  
Hearing you say  
That's alright with me  
Can't stop dreaming  
You're the reason  
Had to let you know  
That's alright with me

You gave me this feeling  
Can't keep concealing  
Baby, I can't hide my heart  
I can hear love calling  
And now I'm falling  
Faster than a shooting star

I wanna be the one  
I wanna turn you on  
I'll keep you satisfied  
Cause you can do no wrong  
Together we belong  
Forever you and I
