

Welcome

Marta Sánchez

I felt you suffering how can I help you
I gave you a new world to satisfy you
But you knew all along I pay the cost
So right now don't complain I am the boss

□

You know that I control all of your time now
Put on your favorite dress let's go out on the town
Where is that beautiful smile you know I love
We've walked for miles and miles it's not so tough

□

Welcome to the land of joy and love
It could be the most if you wanna be happy
You got to give up and do whatever I want

□

Welcome to the land of joy and love
It could be the most if you wanna be happy
You got to give up and do whatever I want

□

Don't be afraid cause everything is alright
I bought you many things to calm your storm inside
Who knew you would fall into my dirty trap
And you know that I won't destroy all of your pride
What we have is so much

□

Welcome to the land of joy and love
It could be the most if you wanna be happy
You got to give up and do whatever I want

□

Welcome to the land of joy and love
It could be the most if you wanna be happy
You got to give up and do whatever I want

Welcome to the land of joy and love
Welcome to the land of joy and love

Welcome to the land of joy and love
It could be the most if you wanna be happy
