

Left To Right

Marteen

She told them other boys step aside
When she led me off to the dance floor
I followed her left to right
Yeah I followed her left to right
I told these other girls step aside
From the moment she caught my eye
And I followed her left to right
Yeah I followed her left to right (Yeah, alright)

Let me set the scene up
Dance floor in between us (Ayy)
DJ got us geeked up
I know everybody seen her
She came with Alicia (Wassup)
That's my homie from Benicia
I told the DJ go and speed it up (Do it)
We just let the music lead us

And when her song came on I knew that it was on, oh
She know what she want she says that I'm the one

She told them other boys step aside
When she led me off to the dance floor
I followed her left to right
Yeah I followed her left to right
I told these other girls step aside (Yeah)
From the moment she caught my eye
And I followed her left to right
Yeah I followed her left to right

We were left to right yeah
And we did it all night yeah
We were left to right yeah (Ayy)
And we did it all night, yeah
'Cause I followed her left to right

Her best friend gave the co-sign (Ayy)
That's how you know that it's go time
DJ hit us with a dope vibe
So good that he brought it back four times, oh (Ayy)
Same old two step
When I'm dancin' with you it's a brand new step (Yeah)
She stuck around when her crew left
I feel like it's up to me what we do next yeah

And when her song came on I knew that it was on, oh
She know what she want she says that I'm the one

She told them other boys step aside
When she led me off to the dance floor
I followed her left to right
Yeah I followed her left to right
I told these other girls step aside
From the moment she caught my eye
And I followed her left to right
Yeah I followed her left to right

We were left to right yeah (Yeah, yeah)
And we did it all night yeah
We were left to right yeah
And we did it all night yeah
'Cause I followed her left to right

She told them other boys step aside
When she led me off to the dance floor
I followed her left to right
Yeah I followed her left to right
I told these other girls step aside (Hey)
From the moment she caught my eye
And I followed her left to right
Yeah I followed her left to right

We were left to right yeah
And we did it all night yeah (We did)
We were left to right yeah
And we did it all night yeah
'Cause I followed her left to right
