

Never Be Stopped

Marteen

Gained up
From the middle
I'm a real one
Keep it a hunnid with 'em
I know it's a hard to be something you're not
So I'm gonna be honest
I don't wanna let go
Go

Say bye
Not now
Let's get lost
Look what I found
Baby, I'm on a plot for the whole world
Whole world

And I never be stopped, no
I don't wanna be blast, no
I could save you a spot
Take it to the top, hey
Take it to the top, hey, yeah
You can take it to the top

Don't think much about it
Let's go
Ghost, I couldn't go without you
Set the GPS CS and we en route
I told the clouds when she asked what I was into
Now it's just me and you
Prove 'em wrong is what we do, yeah
Matter of fact it's all we do
Yeah, yeah

Say bye
Not now
Let's get lost
Look what I found
Baby, I'm on a plot for the whole world
Whole world

And I never be stopped, no
I don't wanna be blast, no
I could save you a spot
Take it to the top, uh

We could take it to the top, aye
Yeah
We could take it to the top
We could take it to the top, aye
Yeah
We could take it to the top

Top, top, I take it to the top like the penthouse
Seen a lot of things but you ain't see this view
I'm the livin' proof of the what the mind could do
I've been graduated, I still take 'em to school
Like the yellow bus

Don't wanna settle down
I would rather settle up
I pay no mind to the bullshit they tellin' us
Bullshit they feedin' me
Hella hands out
Everybody wanna piece of me
I feel the wind in my wings
I want the finer things, yeah
Livin' life like a good star
Aye, now watch me take it to the top
Whoa

And I never be stopped, no
I don't wanna be blast, no
I could save you a spot
Take it to the top
We could take it to the top, aye
Yeah
We could take it to the top
We could take it to the top, aye
Yeah
We could take it to the top
