

# Worst Behind Us

Marteen

Fall apart too often, I know we could lose control  
But if we focus on the problems, how are we suppose to grow?

And if we find ourselves trippin'  
Ease your mind this moment

So for now let's put the worst behind us  
We got better things to put our minds on  
Yeah, I'm only talking plus no minus  
'Cause we only going (High)  
Ayy, for now let's put the worst behind us  
Let's go somewhere they would never find us  
Baby, we don't need the past to blind us  
'Cause we only going (High)

In my teens, but I know a few thangs  
Keep it pushing, that's how we should do thangs  
Hold you down, don't hold no grudges  
Let time pass it's all love, yeah  
Always, we made it this far  
Some days, I know it gets hard  
When you don't know what's meant to be  
Might just have to wait and see, yeah

And if we find ourselves trippin'  
Ease your mind this moment

So for now let's put the worst behind us  
We got better things to put our minds on  
Yeah, I'm only talking plus no minus  
'Cause we only going (High)  
Ayy, for now let's put the worst behind us  
Let's go somewhere they would never find us  
Baby, we don't need the past to blind us  
'Cause we only going (High)

Yeah, yeah, yeah (You know the vibes, ayy)  
No we don't look back, no we don't look back, back no  
Yeah, yeah, yeah (Right)  
No we don't look back, no we don't look back

So for now let's put the worst behind us  
We got better things to put our minds on  
Yeah, I'm only talking plus no minus  
'Cause we only going (High)  
Ayy, for now let's put the worst behind us  
Let's go somewhere they would never find us  
Baby, we don't need the past to blind us  
'Cause we only going (High)

Let's put the worst behind us, worst behind us (Oh, woah)  
Let's put the worst behind us, worst behind us (Oh, woah)  
Let's put the worst behind us, worst behind us (Oh, woah)  
Let's put the worst behind us, worst behind us, yeah
