

# Radio Star

Martha Wainwright

I'm at the controls in the big old chair  
Nothing has changed except the atmosphere  
High on the hill people stand still  
Watching and pointing and screaming  
Turn on the radio

We're approaching you fast  
We're coming at last

On the radio star  
We've traveled so far  
On the radio star  
We don't love anymore  
And I want you to know that everything that is in your head  
Can be heard night and day  
So watch what you think and say

Avert your eyes  
Get a disguise  
Learn how to lie  
Turn on the radio  
The future is here,  
It's been here for years  
Nobody can stand each other,  
There no time to love another  
Learn how to dance  
Kill the romance  
2 - 3 - 4 - 1  
Turn on the radio star

On the radio star  
We've traveled so far  
On the radio star  
We don't love anymore  
And I want you to know that everything that is in your head  
Can be heard night and day  
So watch what you think and say

Well I heard on the megaphone  
We will always be alone  
And there's nothing you can say  
That will make me wanna stay  
Well I might be gone for long  
I might be gone forever, forever

On the radio star  
We've traveled so far  
On the radio star  
We don't love anymore  
And I want you to know that everything that is in your head  
Can be heard night and day  
So watch what you think and say

Turn on the radio star, radio star  
We've traveled so far  
On the radio star  
We don't love anymore

And I want you to know that everything that is in your head  
Can be heard night and day  
So watch what you think and say
