

Empty

Martin Garrix

I'm
Stuck in this state of mind
Draining every stream of light
Don't know if I'm still alive

Only dark skies on the border
There's no sunshine shining 'round the corner
It's a dead end in a lost place
Finding out the harder way would be a mistake

So don't you try to save me
It's not worth the fight
You don't wanna know
What keeps me up at night
Don't you try to change me
It's a waste of time
Don't reach for my heart
It's empty inside

It's empty inside
Don't reach for my heart

Don't reach for my heart
It's empty inside

Dreams
Nothing's ever what it seems
Trapped inside this make believe
Wish you knew you're in too deep

Only dark skies on the border
There's no sunshine shining round the corner
It's a dead end in a lost place
Finding out the harder way would be a mistake

So don't you try to save me
It's not worth the fight
You don't wanna know
What keeps me up at night
Don't you try to change me
It's a waste of time
Don't reach for my heart
It's empty inside

Don't reach for my heart
It's empty inside
Don't reach for my heart
It's empty inside
