

# Gravity

Martin Garrix

Why am I so dependent?  
Thoughts runnin' through my mind  
My shoulders carry all the pressure (pressure, oh)  
Even though I'm so relentless  
No matter how hard I try  
It feels like it ain't getting better (better)

Oh, if only I can find the light  
To illuminate the dark inside  
Escape from all the fears in me I hold

What if I could let go?  
Both feet off the ground  
What if there's a place  
Where all my troubles can't be found?  
And what if I would reach it?  
My mind up in the clouds  
What if I just break away from noises in the crowd?  
When gravity's not around

When gravity's not around  
When gravity's not around

When gravity's not around  
When gravity's not around

This feeling, I can't explain it  
It's something that I can't describe  
I'm floatin' without being weightless (oh)  
I've been through all different phases  
After falling down a million times  
At least now I can say I've tried  
I tried, I tried

Oh, if only I can find the light  
To illuminate the dark inside  
Escape from all the fears in me I hold

What if I could let go?  
Both feet off the ground  
What if there's a place  
Where all my troubles can't be found?  
And what if I would reach it?  
My mind up in the clouds  
What if I just break away from noises in the crowd?  
When gravity's not around

When gravity's not around  
When gravity's not around

When gravity's not around  
When gravity's not around
