

# If We'll Ever Be Remembered

Martin Garrix

We all turn to dust when we go  
Before we know it  
Time just flies away, we lose control, oh

I wonder why we keep trying to chase a feeling  
That was always in our hearts  
All these mistakes I know we wouldn't make  
If we'd go back to the start

If we'll ever be remembered  
I hope it'll be for the way that we love  
Life gets better, we're together  
And one day we'll smile looking down from above

I guess we'll never know when our time will come  
But if we'll ever be remembered  
I know it'll be for the way that we love

If we'll ever be remembered  
I know it'll be for the way that we love  
If we'll ever be remembered  
I know it'll be for the way that we love

Tainted by the pain when dreams get crushed  
But we come back stronger  
There's always gotta be a way to not give up, oh

I wonder why we keep trying to chase a feeling  
That was always in our hearts  
All these mistakes I know we wouldn't make  
If we'd go back to the start

If we'll ever be remembered  
I hope it'll be for the way that we love  
Life gets better, we're together  
And one day we'll smile looking down from above

I guess we'll never know when our time will come  
But if we'll ever be remembered  
I know it'll be for the way that we love

Ooh  
If we'll ever be remembered  
I know it'll be for the way that we love

If we'll ever be remembered  
I hope it'll be for the way that we love

I guess we'll never know when our time will come  
But if we'll ever be remembered  
I know it'll be for the way that we love
