

# Oxygen

Martin Garrix

Your voice is an echo  
I find so hard to let go  
Now everything's so cold  
I know I can't do this on my own

O-only you can give me the oxygen I need  
And I know I could never let go  
Cause all I hear is your echo

Your echo  
Your echo  
All I hear is your echo  
Your echo  
Your echo  
All I hear is your echo

Echo  
All I hear is your echo  
Echo

Up above or down below  
I know the future is still unknown  
But there is somethings  
We can't replace

Your voice is an echo  
I find so hard to let go  
Now everything's so cold  
I know I can't do this on my own

O-only you can give me the oxygen I need  
And I know I could never let go  
Cause all I hear is your echo

All I hear is your echo  
Your echo  
Your echo  
All I hear is your echo  
Your echo  
Your echo  
All I hear is your echo

All I hear is your echo  
Echo  
All I hear is your echo
