

Set Me Free

Martin Garrix

When I'm tied up to my hands
And we're stuck in the same dance
You're the crime, you're the witness
Set me free, set me free, yeah

When I'm tied up to my hands
And we're stuck in the same dance
You're the crime, you're the witness
Set me free, set me free

Let me go
I know that our love is sexual
When you hit me up, I can't say no
And then my heart bleeds
When you've got me begging for more
Let me go
I know that our love is chemical
When you hit me up, I lose control
And then my heart bleeds
When you've got me begging for more

You're the crime, you're the witness
Set me free, set me free
Got me begging for more
Got me begging for more

When I'm tied up to my hands
And we're stuck in the same dance
You're the crime, you're the witness
Set me free, set me free, yeah
When I'm tied up to my hands
And we're stuck in the same dance
You're the crime, you're the witness
Set me free, set me free

Let me go
I know that our love is sexual
When you hit me up, I can't say no
And then my heart bleeds
When you've got me begging for more
Let me go
I know that our love is chemical
When you hit me up, I lose control
And then my heart bleeds
When you've got me begging for more

You're the crime, you're the witness
Set me free, set me free
Got me begging for more
Got me begging for more
