

# Sun Is Never Going Down

Martin Garrix

Is this life  
Is it real  
Do you feel the things that I feel  
Close your eyes  
Disappear  
And we can watch burn, burn from here

'Cause I'm rising higher than I've been before  
And I'm ready, ready crying out for more  
'Cause I know the sun is never going down  
Nothing's gonna slow us down  
I don't wanna fall asleep  
Baby stay awake with me  
The sun is never going  
Sun is never going  
Sun is never going down, down, down

Blinding lights, in a daze  
Let it stay like this for always  
My whole sky, is a blaze  
And when you're here with me we elevate

'Cause I'm rising higher than I've been before  
And I'm ready, ready crying out for more  
'Cause I know the sun is never going down  
Nothing's gonna slow us down  
I don't wanna fall asleep  
Baby stay awake with me  
The sun is never going  
Sun is never going  
Sun is never going down, down, down
