

# Miracles

Martin Jensen

Miracles, I see miracles  
There's a fire burning deep within your eyes  
Searching for something beautiful  
Now I see that you're my angel in the night

You  
Yeah, I've been waiting here for you to take me higher  
Higher  
You  
Yeah, I've been waiting here for you to take me higher  
Higher

Whenever the lights are burning low  
Whenever the nights are turning cold  
You are the one who takes me home  
Feel like you brought me back to life  
I know that my heart will be alright  
When I breathe your love  
I breathe your love  
Yeah yeah  
When I breath your love  
When I breath your love

When I breath your love

Magical, it's so magical  
I see it written in the stars upon the sky  
Powerful, feel so powerful  
When we touch I get this feeling deep inside

You  
Yeah, I've been waiting here for you to take me higher  
Higher  
You  
Yeah, I've been waiting here for you to take me higher

Whenever the lights are burning low  
Whenever the nights are turning cold  
You are the one who takes me home  
Feel like you brought me back to life  
I know that my heart will be alright  
When I breathe your love  
I breathe your love  
Yeah yeah  
When I breathe your love  
When I breathe your love

When I breathe your love

When I breathe your love  
I breathe your love
