

What A Night

Martin Jensen

I'm on a whole 'nother level
Lose myself in flashing lights
One touch of you is like heaven
The crowd is freaking out till five

Never seen such a night with my own eyes
'Cause we're breaking the silence with love
Running circles it never felt so right
I can't hold it back no more

What a magic, what a night
Take me to your paradise
I don't know a lot but I know I'm alright
As long as I got you
What a magic, what a night
Like we're legends in the sky
I don't know a lot but I know I'm alright
As long as I got you

Never seen such a night with my own eyes
'Cause we're breaking the silence with love
Running circles it never felt so right
I can't hold it back no more

What a magic, what a night
Take me to your paradise
I don't know a lot but I know I'm alright
As long as I got you
What a magic, what a night
Like we're legends in the sky
I don't know a lot but I know I'm alright
As long as I got you

As long as I got you

What a magic, what a night
Take me to your paradise
I don't know a lot but I know I'm alright
As long as I got you
What a magic, what a night
Like we're legends in the sky
I don't know a lot but I know I'm alright
As long as I got you
