

## Little Closer

Martin Jondo

Come a little closer darlin  
I just wanna keep on falling  
Into sweet love with you  
Oh with you girl

Come a little closer darlin  
I just wanna keep on falling  
Into sweet love with you  
Oh with you girl

So baby where you tun to  
I just got you deep on my mind  
so anywhere you run to tonight  
I will come and find you  
You will come and find me on your mind  
So anywhere we ride to will be alright

Come a little closer darlin  
I just wanna keep on falling  
Into sweet love with you  
Oh with you girl

Come a little closer darlin  
I just wanna keep on falling  
Into sweet love with you  
Oh with you girl

So girl I do adore you  
Babygirl I love your smile  
And I just wanna talk with you  
Through the whole whole night  
Go on pretty lady  
Come on and whisper in my ear  
Some words of wisom  
Some words the others just don't hear and

Come a little closer darlin  
I just wanna keep on falling  
Into sweet love with you  
Oh with you girl

Come a little closer darlin  
I just wanna keep on falling  
Into sweet love with you  
Oh with you girl
