

# Rise Up

Martin Jondo

I saw we rise up and we'll never give it up  
Jah never loose Jah power and we never loose Jah love  
My people rise up out of the evil dust [2x]

Born in Babylon but me know me can't stay  
So me taking Jah train while dem are fading away  
Falling asleep while dem think dem are awake  
You got to shake dem before it's too late yau

Evil greedy thoughts ruling over mankind  
Still dem asking god oh why  
Answer man a born with own hands  
Own hearts own sense yau

With your own to hands you got to work  
With your own to hands you got to fulfil your word  
With your own to hands you make peace of war  
Peace of war

With your own to hands you'll make it work  
With your own to hands you can change dis ya world  
With your own to hands you rule over your life  
Rule your life

I saw we rise up and we'll never give it up  
Jah never loose Jah power and we never loose Jah love  
My people rise up out of the evil dust rise, rise, rise [2x]

Rise up, rise up, rise up

Too many times me saw lie in dem face  
Burning another hut to glorify dem race yau  
Selling telling what dem never eaten up before  
But Jah Jah rain fall for sure

How many rhymes of Jah Jah people dem ignore  
Killing another culture to get more and more  
But no matter what dem say and na no matter what dem do  
Natty dread push on through so

Come a come a dance my sister  
You come a come a dance my brother  
Come a come a dance my sister  
Dance with me my brother  
Come a come a dance my sister  
You come a come a dance my brother  
We don't need to suffer no longer

I saw we rise up and we'll never give it up  
Jah never loose Jah power and we never loose Jah love  
My people rise up out of the evil dust rise, rise, rise [2x]

Rise up, rise up, rise up  
Rise, rise, rise [2x]
