

Stranger In This Land

Martin Jondo

If you look in the history book you know how they died
This book counts the life it took and who remained
still cries

You can't understand no, what they try to teach you
You can't understand no, well'cause you are not from
here oh no no

You can't understand no, what they want you to do, oh
no no

You can't understand no, well'cause you well'cause you
are a

Stranger in this land

'cause you from far away

You are a stranger in this land and i know
well i know that you are from far away

If you look in the future book, what will be and tell
me why, people

this book shouldn't count a life took and who remained
shouldn't have to cry

So why don't we try to change what we did wrong

'cause I know we are able to and love makes us strong

So come back back to the other, to your, your true home

So come back back to the other, to your, your true home

Stranger in this land

'cause you from far away

You are a stranger in this land and i know
well i know that you are from far away

So I say get up, stand up children come unite

I say get up, stand up children in Jah light

I say get up now, stand children come and fight

I say get up now, stand up now children come and fight
in this land
