

# We Came To Smash (In A Black Tuxedo)

Martin Solveig

You clap your hands, you're turning heads  
You're jumping ship, jumping on my bed  
You snuck into my room, danced away the night  
I turned off my light, I turned off my light.

So watch me, baby, follow my lead  
They can't stop us now, take what you need  
You came to smash it all,  
What we got to lose  
In the black tuxedo and shiny shoes.

We came to smash, smash  
We came to smash  
We came to smash, smash  
We came to smash  
Smash, smash  
We came to smash

In a black tux  
In a black tux  
We came to smash, smash

We came to smash in a black tux  
We came to smash, smash  
In the black tuxedo.

It's not too late, I swear it's not  
The sun's asleep, the sky is polka dot  
Park up your car in the parking lot,  
Let's take a ride to my vacation spot

The streets are full, fuck it, we'll walk  
Call my phone if you wanna talk  
I got no bars, it's dark in here  
I only shine so I can disappear.

In a black tux  
In a black tux  
We came to smash, smash  
We came to smash in a black tux  
We came to smash in a black tuxedo.
