## **Be That Way**

## **Martina McBride**

Every time I turn around I run right into your pride Sometimes I'm not so sure if I wanna Know that guy, know that guy 'Cause you've got a rock hard head Stubborn as a mule Oh, yeah, and by the way, I still love you

Go on and be that way Slam that door Make a scene Yell some more Come on let's have it out Have your say 'Cause with a love this strong Baby it's okay For you to be that way

Sometimes what you don't say Can make the deepest cut And I get my feelings hurt And I just go nuts, well a little nuts So try to ignore that girl She's just blowin' off steam Oh and I don't know about her But I hope you say to me

Go on and be that way Slam that door Make a scene Yell some more Come on let's have it out Have your say 'Cause with a love this strong Baby it's okay For you to be that way

Baby let's get emotional What do you say we let it all go Let it go

Go on and be that way Slam that door Make a scene Yell some more Come on let's have it out Have your say 'Cause with a love this strong Baby it's okay For you to be that way

Be that way, oh yeah
