

Closing Time

Martina McBride

It's closing time
They're cleaning the place
There's no more encores
The hand off the stage
I came with a fifty now I don't have a dime
It's closing time

I gave my heart
And you gave yours too
Nobody cheated and nobody lied
That's why I'm confused
There's no explanation
There's no reason why
But it's closing time

Please don't kiss me like that baby
One more time's just a lie
Quick and cold's the only way we're gonna make it out alive
And don't tell me that you love me boy I know that you do
Love ain't been the problem boy you know I love you too but

It's closing time there's nothing left to say
Let's close out these tabs call separate cabs and go our own way
s
And don't call me when you get home
You know we'll change our minds
It's closing time

It's closing time
There's nothing left to say
Please don't call up my phone you know I'm not home I've gone a
way
Don't dial my number because I'm not on the line
It's closing time
