

## Sandpaper Kisses

Martina Topley-Bird

Sandpaper kisses, papercut bliss  
Don't know what this is, but it all leads to this:  
You're gonna leave Her  
You have deceived Her  
Just a girl

Ooh just a girl with featherweight curls  
To expose all she knows you play like tease  
Just a girl with featherweight curls  
To expose all she knows you play like tease

You're gonna leave Her  
You have deceived Her  
Just a girl

I want the soul of something simple to  
Take home with me  
The world as someplace simple it's my  
Home you see

You're gonna leave Her  
You have deceived Her  
Just a girl, a blood red pearl
