

You never seemed to see my side  
Always wanna run and hide  
From the truth  
I've never been your number one  
You want me for the lovely money and the fun

But it's too late baby  
Guess it's time to leave you  
And save me  
Archive our life archive our lives  
Hey there you I said  
I'm talking to you yeah  
Archive our lives I said  
Archive our lives

Loving you I must be blind  
What you're searching for  
You will never find

But it's too late baby  
Guess it's time to leave you  
And save me  
Archive our life archive our lives  
Hey there you I said  
I'm talking to you yeah  
Archive our lives I said  
Archive our lives (just)

But it's too late baby  
Guess it's time to leave you  
And save me  
Archive our life archive our lives  
Hey there you I said  
I'm talking to you yeah  
Archive our lives I said  
Archive our lives (just)
