

What You Do to Me

Martine McCutcheon

No I don't wanna lose control
But I don't wanna let you go

The walls we're building coming down around us
Give me a reason to believe

What you do to me what you do to me
Hit me like a hurricane
You bring me to my knees
I can hardly breathe
I can hardly breathe
Shake me like an earthquake
Losing ground beneath my feet
No I can't stop now
And it won't slow down
You destroy me so beautifully
What you do to me
What you do to me

Speak
I'm choking on a silent heart
This empty space
Is slowly tearing us apart

This water's rising now
We're going under
Going under
Give me a reason to believe

What you do to me what you do to me
Hit me like a hurricane
You bring me to my knees
I can hardly breathe
I can hardly breathe
Shake me like an earthquake
Losing ground beneath my feet
No I can't stop now
And it won't slow down
You destroy me so beautifully
What you do to me
What you do to me

What you do to me what you do to me
Hit me like a hurricane
You bring me to my knees
I can hardly breathe
I can hardly breathe
Shake me like an earthquake
Losing ground beneath my feet
No I can't stop now
And it won't slow down
You destroy me so beautifully
What you do to me
What you do to me
