

Blow Out The Candles

Marty Robbins

(Blow out the candles)
(Blow out the candles)
(Is all that I could do)

You came to my party on my special day
And I couldn't help it I wish you'd stayed away
But you walked right in close to your new love's side
And I walked right into the next room and cried

Blow out the candles I still hear them say
Wishes come true in this special way
But what could I wish for if I can't have you
Blow out the candles is all I could do

The party is over and I'm here alone
With one little candle that still flickers on
Nobody cares if it dies or it burns
But just like this old flame in my heart it burns

Blow out the candles I still hear them say
Wishes come true in this special way
But what could I wish for when I can't have you
Blow out the candles is all I could do
