

Don't Let Me Touch You

Marty Robbins

Guess who I saw today and I asked him about you
I saw your new love and it was plain he cares about you
But I'll wait until he's out of town
Then I'll call you up and want to come around

But don't let me touch you don't let me get close to you
Though I might say nice things and I might bring a rose to you
There's just a chance your old romance might burn anew
Don't let me touch you don't let me get close to you

Don't let me touch you don't let me get close to you
Though I might say nice things and I might bring a rose to you
There's just a chance your old romance might burn anew
Don't let me touch you don't let me get close to you

Don't let me touch you
