

# It's Too Late Now To Worry Anymore

**Marty Robbins**

Things have changed a lot since first we met  
Still recall the gingham dress you wore  
The lovely night I'm trying to forget too late now to worry any  
more  
Those simple vows we made were not to be you'll never love me a  
s you did before  
Your tender smile no longer is for me too late now to worry any  
more

Tears that dimmed my eyes had passed away let me only memorize  
of yours  
You've gone and there is nothing left to say too late now to wo  
rry anymore  
Wherever you may wander may you find kind of love your heart is  
searching for  
Forget about this aching heart of mine too late now to worry an  
ymore
