

## Only a Picture Stops Time

Marty Robbins

I looked at the pictures of you and I  
Taken before your love for me died  
And I relive the moments when you were mine  
'Cause only a picture stops time

I live in the present and look at the past  
I have no future, your love didn't last  
But I keep your picture so I won't lose my mind  
'Cause only a picture stops time

Each heartbeat reminds me that we're far apart  
Though I hold your picture so close to my heart

So I'll have a moment with you now and then  
Since you once loved me I know you'll understand  
Why I keep your picture, I hope you kept mine  
'Cause only a picture stops time
