The Little Green Valley

Marty Robbins

```
D                      G                              D
I see a candlelight  down in the little green valley
              A7                                      D
Where Morning Glory vines are twining 'round my door
    A7     D
Oh, how I  wish I were there again
G                          D
Down in the little green valley
                 A7                                        D
That's where my homesick heart will trouble me no more.

                  G                                  D
There's only one thing ever gives me consolation
                                                        A7
And that's the thought that I'll be going back someday
          D
And ev'ry night down upon my knees
G                            D
I pray the Lord to please take me
             A7                                D
Back to that little old green valley far away.

I hear a mockingbird down in the little green valley
He's singing out a song of welcome just for me
And someone waits by the garden gate
Down in the little green valley
When I get back again, how happy she will be.

And by a little babbling brook, once more we'll wander
And in a shady nook, we'll dream the hours away
And I will leave all my cares behind
Go where I know I'll find sunshine
Back to that little old green valley far away.
```
