

## For You

MARUV

For you...

For you...

Loves only the money vibes  
She will never compromise  
She had cross a lot of lines  
She wastin' her days and nights  
Her six inch heels tonight  
Will pierce through someone's mind  
Give her money for all night  
And she will dance all night

For you...

For you...

For you...

For you...

For you...

For you...

Bang-bang shot you down  
Made witch is in town  
Do you hear the alarm  
Knock-knock knock you down  
Lock out she has come undone  
Her six inch heels tonight  
Will pierce through your dirty mind  
Give her for a night and baby  
And she will dance all night

For you...

For you...

For you...

For you...

For you...

For you...

For you...

For you...

Loves only the money vibes  
She will never compromise  
She had cross a lot of lines  
She wastin' her days and nights
