MARUV

Money make it  
Money take it  
Strip my soul  
Until it's naked  
Money make it  
Money take it  
Oh

Money make it  
Money take it  
Strip my soul  
Until it's naked  
Money make it  
Money take it  
Oh

You're never gonna know how much is wasted  
You think it looks like sugar till you taste it  
Don't put your greedy hands around my waist and  
Live your life, don't copy-paste it  
Money is the power, power is the money  
But it doesn't matter when you lose somebody  
When you up and floating above your breathless body  
Money has no power, money is just money!

Money make it  
Money take it  
Strip my soul  
Until it's naked  
Money make it  
Money take it  
Oh

Money make it  
Money take it  
Strip my soul  
Until it's naked  
Money make it  
Money take it  
Oh

Dusty road and I am on it  
Hungry, lonely souls along it  
Someone gets a chance to blow it  
Someone sees it, takes it, holds it  
Which road you pick, which way you go  
I don't know, you have to know  
Which road you pick, which way you go  
I don't know, you know, you have to know

Money make it  
Money take it  
Strip my soul  
Until it's naked  
Money make it  
Money take it  
Oh

Money make it  
Money take it  
Strip my soul  
Until it's naked  
Money make it  
Money take it  
Oh

Money make it  
Money take it  
Save your soul  
And please don't fake it  
Money make it  
Money take it  
Oh

Money make it  
Money take it  
Save your soul  
And please don't fake it  
Money make it  
Money take it  
Oh

Money make it  
Money take it  
Save my soul  
And please don't fake it  
Money make it  
Money take it  
Oh

Money make it  
Money take it  
Save my soul  
And please don't fake it  
Money make it  
Money take it  
Oh
