

Under My Skin

MARUV

Women loose their minds
When the guys fuck them right
That's the truth they don't say
But at night all they pray

For the hot wild sex coming from that hot ex
Who is devilishly hot and insists if you say "not"
Not, not, not
Hot, hot, hot, hot
Not, not, not, not
Hot, hot, hot, hot

Who is the devil inside just as much as outside
Who has honey on his dick and he knows do the trick
No need to restraint, they say life is a game
But I wanna say, it's just a long way
From the vagina to the grave
From the vagina to the grave
From the vagina to the grave
From the vagina to the grave

You're under, under, under my skin
I want, I want, I want you in
You under, under, under my skin
I want, I want, I want you in

You're devil, dare devil
Seductive and rebel
Press the pedal, next level
New prey and new medal

I'm burning, I am sweating
I'm loosing my mind
Just do it, baby, just do it right
I'm burning, I am sweating
I'm loosing my mind
Just fuck me, baby, just do it right

You're under, under, under my skin
I want, I want, I want you in
You under, under, under my skin
I want, I want, I want you in

You're under, under, under my skin
I want, I want, I want you in
You under, under, under my skin
I want, I want, I want you in
