

Get Off

Marvelous 3

Put away the monopoly, we've played enough games today.
I let you suffer through enough already.
Let's take a trip downtown to the old Johns Sassafrass grill.
It seems to work wonders on dilemmas,
The kind you can't cure with a pill.

(chorus)

Let's get off this train,
I left my life in the rain.
And I can't go any further.
If my thoughts seem too unkind,
Call the dogs and put it on my dime.
I never beg for free.

What's that song on the radio?
The one that says; "love will keep us together;"
Do you still have the same ol' picture in your wallet
Of the time we met (danced)
And baby you were my queen,
And I was your king; I made you scream.

(chorus)
