

## Is Anybody Thinking About Their Living?

Marvin Gaye

You know, I hear this is going out  
Of the album, all over the side to the b-  
side, to the outer side, you know?  
This is a strange thing, let's see what happens

Making light  
Yo mum said, if you didn't understand it  
You could take your time and try gettin' it right  
Now baby, dance, step a little closer  
You've got to feel it, so baby, let it move  
You take a little time, you get out, now  
Now, don't you know you sure won't be no fool?  
Can't help it  
The reason is because, you see, we're nice  
But are on the road to life, you longing  
You'll find a better time, take advice  
Now work it out, friends understand  
The groove is 'cause you want to make it right  
You shakers huff or puffin' all your troubles  
Get in the move and, and start tonight  
I see myself and though you must believe  
And take a little hint from [?]  
Just let your hips-a loose and start to move
