

Just For You (A Growing Love)

Marvin Gaye

Just for you, I will build up a castle so high
'Til it reaches the sky, and then you and I
Will climb these tower steps to the moon
There, I'll compose you a tune
That I'll sing to the stars above
Who are viewing a growing love
That only can be true

Just for you, I'll strive to make all dreams come true
Just for one sweet kiss
That tender moment of bliss
When your lips say "I love you
I promise to always be true"
Then I'll run to the stars above
Tell them our growing love is here to stay
Forever and a day

Just for you, I'll strive to make all dreams come true
Just for one sweet kiss
That tender moment of bliss
When your lips say "I love you
I promise to always be true"
Then I'll run to the stars above
Tell them our growing love is here to stay
Forever and a day

I'll always love you forever and a day
