

Free Fallin

Marvin Sapp

Listen

I just wanna share in my heart [?]
I'll tell you something

Whenever you need someone, you can count on me
'Cause you been by my side every time I needed you
Never falling off when we disagree
'Cause iron sharpens iron
Baby, sharpen me up

On my mind, like night and day
Ask God for your protection every time I pray
If this is love that we're feeling
Only us could stop us from falling

Baby, if we fall, we're free-falling
Baby, if I fall, I rather fall for you
I rather fall for you
I rather it be you

Baby, if we fall, we're free-falling
Baby, if I fall, I rather fall for you
I rather fall for you
I rather it be you

Stop, unwind, release your stress
You deserve all my love
It's more than just words

It's deeper than physical
Way more than mental
This here is spiritual
I feel with you

You show me what love is
Girl, I'm invested
Might miss my blessing
If I don't let go

Baby, if we fall, we're free-falling
Baby, if I fall, I rather fall for you
I rather fall for you
I rather fall for you
I rather it be you
I rather it be you

Baby, if we fall, we're free-falling
Oh, girl
Baby, if I fall, I rather fall for you
I rather fall for you
I rather it be you

Said, "It gotta be you"

You see: it feels really good to be free-falling with you, my love
You know you make me wanna kinda step in, too, but I don't wanna step unless
I'm stepping with you

Listen
It goes

Left, step, turn around, step
Slide, dip, right, left
Baby, rewind if you turn the light
Back, cross, slide, slide

Left, step, turn around, step
Slide, dip, right, left
Baby, rewind if you turn the light
Back, cross, slide, slide
