

Safe in You

Marvin Sapp

No matter what happens
I will praise you
No matter what they say
I will obey
No matter what it looks like
I will trust you
You bring me out
And make a way

No matter what happens
I'm gonna praise you
No matter what they say
I will obey
No matter what it looks like
I will trust you
You bring me out
You bring me out
You bring me out
And make a way

You gave me power to win
You've done it before and you would do it again
I won't be moved by what I can see
In you there's no failure just victory

No matter what happens
I will praise you
No matter what they say
I will obey
No matter what it looks like
I will trust you
You bring me out
You bring me out
You bring me out
And make a way

You gave me power to win
You've done it before and you would do it again
I won't be moved by what I can see
In you there's no failure just victory

You gave me power to win
You've done it before and you would do it again
I won't be moved by what I can see
In you there's no failure just victory

I'm safe in you
I'm safe in you
Safe in the arms of Jesus
[Repeat]

You bring me out
I know He will
You bring me out
And make a way

I'm safe in you

I'm safe in the arms of Jesus
I'm safe in you
I'm safe in the arms of Jesus

You make a way
You make a way
You make a way
You make a way

I'm safe in you
I'm safe in the arms of Jesus
I'm safe in you
I'm safe in the arms of Jesus

I will obey
I will obey
I will obey
I will obey

You'll make a way out of no way
You'll make a way out of no way
If He done it before he will do it again
If He done it before he will do it again

Safe in you
I'm safe in the arms of Jesus
