

All I've Ever Known

Mary Hopkin

All I've ever known
All the love you've shown
Guided by your starry light
I'll find my way again

Thought I'd never see
What you mean to me, oh
I spent the night in Heaven with you
I'm in love again

And all around me is aglow, oh-oh
And you're always here I know, I know, oh-oh

All around me is aglow, oh
Reaching out you're always here, I know, oh-oh

Can you imagine what it's like to be all alone
To never learn and never grow?
I'm gonna leave, I'm gonna leave, I'm gonna leave
I'm gonna love you

All I've ever known
All the love you've shown
Guided by your lovin' light
I found my way again

And it will always be the same
Always changing, always growing
Oh, oh, oh, oh-oh-oh, oh-oh, oh...
