

# What Love Is

Mary J. Blige

Beautiful, horrible, magical, terrible  
Reason to laugh and smile, reason to cry yourself  
To sleep at night, start a fight  
Makeup, breakup, wrong or right  
Heaven for all it's worth can equally be held right here on earth

And no one really knows  
(No)  
Anything about it  
But everybody needs it  
We can't live without it

And that's the way it goes  
Darkest day, brightest night  
Just some other things you might hear  
If you ask what love feels like

And it feels like joy  
And it feels like pain  
And it feels like sunshine  
Feels like rain

And excuse the dying  
Reason to live  
And if you don't know  
That's what love is, love is, oh

Gentle kiss, sweet caress  
Kiss the base of your neck  
Argue until my head hurts  
I can't remember what you said

Out, screaming loud  
Don't know what we're screaming 'bout  
So confusing, yes, it's true  
But if it wasn't there what would we do?

And no one really knows  
(No)  
Anything about it  
But everybody needs it  
We can't live without it

And that's the way it goes  
Oh, darkest day, brightest night  
Just some other things you might hear  
If you ask what love feels like

And it feels like joy  
And it feels like pain  
And it feels like sunshine  
Feels like rain

And excuse the dying  
Reason to live  
And if you don't know  
That's what love is, love is, oh

That's love  
(The only thing that can bring you up or break you down)  
That's love  
(Beneath the sun up in your sky or the darkest cloud)  
Darkest cloud

That's love  
(And we need it)  
That's love  
(And we need it)  
That's love  
Oh, ask anybody how it feels

And it feels like joy  
And it feels like pain  
And it feels like sunshine  
Feels like rain

And excuse the dying  
Reason to live  
And if you don't know  
That's what love is, love is

And it feels like joy  
(Joy)  
And it feels like pain  
(Pain)  
And it feels like sunshine  
Feels like rain

And excuse the dying  
Reason to live  
And if you don't know  
That's what love is, love is  
That's it
