Do Anything

Mary Lambert

Here I wait
Brush against my skin
I feel the waves
Of every open door
I could have stayed
I could have stayed and been fine
I could have stayed

Howl when the world
Is standing in from of me
Saying I can do anything
I can do anything
Watch me
Watch me

I could have stayed I could have stayed and been fine I could have stayed I could have stayed and been fine Watch me I could have stayed and been fine Watch me I could have stayed and been fine Watch me I could have stayed and been fine Watch me I could have stayed and been fine Watch me I could have stayed and been fine Watch me I could have stayed and been fine Watch me

I could have stayed and been fine

I could have stayed and been fine

Watch me
