

Steady & Sure

Mary Lambert

Do you know how to hold my heart
Like a safe and holy relic?
Didn't know who I was before
Kind of love that feels like magic

It was spring and I was tired
You asked me if I had TSA PreCheck
And I laughed a full laugh
Sometimes when I cry I can't stop
But there is your hand, steady and sure

You've got all I need
Prehistoric glow
You've got all I need
Wild eyes making sense of it
You've got all I need
Cutting through the static

What a life
What a gift
May we honor it
May we honor it

Love is a verb and I'm awake
Isn't it beautiful
The way we fit together?
I don't think I've ever been so alive

You've got all I need
Prehistoric glow
You've got all I need
Wild eyes making sense of it
You've got all I need
Cutting through the static

What a life
What a gift
May we honor it
May we honor it

You've got all I need
(What a love
What a life this is)
You've got all I need
(What a love
What a life we have)
You've got all I need
(What a love
What a life this is)
You've got all I need
(What a love
What a life we have)

Do you know how to hold my heart
Like a safe and holy relic?
Didn't know who I was before
Kind of love that feels like magic
