

## For A While

Mary MacGregor

I think I'll stay around here for a while  
I like your way of talking and your smile  
I think I've played around enough  
With boys who think they're acting tough  
Think I'm ready for your style, for a while

I like the way you hold me, like a child  
Might even let you tame my running wild  
Even if it's not forever, it feels good to be together  
We've got so much love to share, while it's there

I've been treated like a little girl  
Who still believes in Cinderella's world  
But I don't want to dream, or fantasize  
When I'm making love to you, I won't close my eyes

I like the way you always take your time  
You give me what a woman wants to find  
I don't want your rhymes or reasons  
I just know your touch is pleasin'  
Just don't ask me why or how, have me now  
While it's there, for a while
