

## You're Just Between Love

Mary MacGregor

She's gone, and you're so lonely  
Lord, it even hurts to cry  
And all she's left you with is a feeling  
That comes from "goodbye"

You're just between love  
Doesn't mean love won't fill your heart again  
You're just between love  
Doesn't mean love won't find your life again

You just take all of me, take every part of me  
And let me love that long-lost feeling back again

Don't walk away from my love  
Let me ease your misery  
I know just where you are, and believe me  
I know what you need

You're just between love  
Doesn't mean love won't fill your heart again  
You're just between love  
It doesn't mean love won't find your life

You just take all of me, take every part of me  
And let me love that long-lost feeling back again  
And let me love that long-lost feeling back again
