

I'll Still Be Around

Mary Wells

If your new love don't turn out right
And your future don't look too bright
If you're feeling all alone
Just come on back home
Oh my love, my love, I'll still be around

And if she find somebody else
And she leaves you all by yourself
Just call and say you're blue
I'll come running back to you
Oh my love, my love, I'll still be around

[?]

And it doesn't last too long
I'll be here to love you, my dear
And comfort you when she's gone

But remember if your new love don't turn out right
And your future don't look too bright
If you're feeling all alone
Just come on back home
Oh my love, my love, I'll still be around
I'll still be around
I'll still be around
I'll still be around
