

One Block From Heaven

Mary Wells

One block from heaven, five minutes from his arms
And I'll be in the midst of his magical charms
One block from heaven, five minutes from his touch
And then soon I'll be with the boy I love so much

Can't wait till I'm with him, it's the only time I live
That's why all of my love to him I give, yeah
As the tears roll down my face, my heart's beatin' at steady pa
ce

One block from heaven, five minutes from his arms
And I'll be in the midst of his magical charms
One block from heaven, five minutes from his touch
And then soon I'll be with the boy I love so much

As I hurry down the street, bumpin' people that I meet
They turn their heads to stare, but I don't even care
Can't wait to see his smilin' face, can't wait to feel his warm
embrace
One block from heaven

One block from heaven, five minutes from his arms
And I'll be in the midst of his magical charms
The only time I'm happy is when he's close by
He's more than a prince, he's where my life begins
Can't wait to feel his embrace, it makes me feel oh so safe

One block from heaven, five minutes from his arms
And I'll be in the midst of his magical charms
Yeah yeah yeah yeah, I'm just one block from heaven
Yeah and I'll be with my baby, yeah yeah
Yeah yeah yeah yeah, I'm one block from heaven
And I'm gonna feel his magical charms
One block from heaven, yeah I'm one block from heaven
Yeah yeah, oh yeah, I'm just one block from heaven
And I'll be with my baby one more time
Yeah yeah yeah yeah...
