

# Back In Da Day

Mase

Yea, I just wanna see you doing good ugh

From the first day I met you I knew you were special  
You had a lot of drama but I used to protect you  
Being you was nieve I could not let you  
Do a lot of things so I had to correct you  
Thinking that if you went left instead of right  
Right now what would your life be like  
And me you know I love the good life  
And you I know you hate the hood life  
I watch you as you turn and turn  
And burn and burn from all your decisions  
You could be a christian rich somewhere  
But you ain't choose to listen so get somewhere  
Its never too late till its too late  
Right now If you's with me you'd be living in a new state  
Riding around with new plates  
Living in a new place  
But you couldn't tell your crew wait  
Come on

I wanna go back to the days  
You stayed and you were loving me  
And I was loving you  
I wanna go cause I would do so many things so differently  
Baby me and you would still be together  
I wanna go back to the days

I see you on the beach  
Feed her rose petals  
I tell you the truth but then you wanna go settle  
A girl like you is on a whole other level  
Tried to move you out the hood but you scared to leave the ghetto  
I told you anything you say you can have it  
With me I always spend a million on my fabric  
Established and lavish carrots is a habbit  
I'm married and that don't mean I want you looking average  
I thought you known that take you where your zone at  
Peeps in the street talking like they own that  
I talk truth but they only want facts  
When you wanna do right you know where your home's at  
I tell you wait on Lennox that means wait a minute  
Bracelet tennis face it we finish  
And just because you're not my girl  
It doesn't mean you're alone in this world

I'm in love with a girl named Tyler  
I'm in love with a girl from Mississippi named Tyler  
I'm in love with a girl named Tyler
